

WYNN GEARY

15 Westminster Street - Providence, RI 02903 - (215) 510-4196
wgeary@risd.edu

EXPERIENCE

- Youngest member of project team for urban conservation project funded by the Knight Foundation; responsible for graphic design and creating a logo for the Neighborhood Conservation Kit.
- Served on board of directors for the Philadelphia Beekeepers Guild; acted as social media coordinator to promote monthly meetings, beekeeping seminars and special events.
- Participated as a honeybee educator at public events.
- Teaching assistant for Rachel Rosenkrantz's Freshman Spatial Dynamics class at The Rhode Island School of Design

WORK HISTORY

Tiny WPA, a nonprofit organization that provides training in design, collaboration, leadership, fabrication, and entrepreneurship.

Graphic Designer/Design-Build Supervisor

Summer 2016

Assisted in designing and laying out signage and grant applications, engaged neighbors and community members in multigenerational design-build activities, and supervised youth and adults in the use of power tools and vinyl cutter in Tiny WPA's collaborative workshop located in West Philadelphia.

PlusUs, an educational design consultancy in Philadelphia.

Student Intern

2012-2015

Assisted in creating curricula, publications, and other designed print materials using Adobe Illustrator, Photoshop and InDesign. Collaborated to create a short course for middle-school science students that encourages them to investigate water quality in their community.

Public Workshop, an organization creating opportunities for youth to shape the design of their cities.

Designer and Builder

2012-2015

Collaborated with teams of youth designers and builders to participate in community design projects in Philadelphia involving design, fabrication, electronics, and art.

Manayunk Farm, an urban micro-farm.

Urban farmer/educator

2013-present

Manayunk Farm is a personal project that merges design, sustainable agriculture and education. For the past three years I have been cultivating and branding this backyard microfarm, blogging about my triumphs and tribulations as a beekeeper and chicken keeper, sharing my experience at local educational events, and selling honey, lip balm, and fresh eggs.

EDUCATION

Science Leadership Academy, Philadelphia, PA - 2015
